

**EASTERN REGIONAL
SERVICE BOARD**

SOLID WASTE | WATER | WASTE WATER

Notice of Service

Placentia Junction Junction Pond

The Eastern Regional Service Board (ERSB) has been established by the Province of Newfoundland & Labrador to develop and implement modern waste management practices in the eastern region.

Starting June 3, 2016 ERSB will be providing information to the property owners in the area of Placentia Junction regarding waste collection and recycling collection. Waste and recycling collection will start on July 5, 2016. There will be a curbside bulk collection on November 14, 2016. As collection is starting on July 5, 2016 the fee for service will be prorated representing 26 weeks of service at \$90.00.

There will be two (2) people canvassing the area. They will be carrying photo ID with the ERSB logo. We ask that you please provide them with the property owners' name and address. If no one is present at the location at the time of our visit an information package will be left on the door, after which we will consider the property owner notified of the service.

Should you wish to contact us in advance and provide your name and mailing address please contact 709.579.7960.
