Mr. Hickman referred to the brief note in meeting package.

He noted that the current Bell Island Multi-Stream Waste Collection Including Recycling and Bulk Pick-up Agreement for Services expires on June 30, 2021 and the Town of Wabana has confirmed that they will not continue with the regional service after the current contract.

Bell Island consists of the Town of Wabana, the Local Service District of Lance Cove and the unincorporated area of Freshwater.

Staff reached out to the LSD of Lance Cove to confirm their interest in continued participation in the regional service and they confirmed they would like to continue past June 30, 2021.

The Board issued a tender for multi-stream waste collection services for the LSD of Lance Cove and the unincorporated area of Freshwater on Bell Island to commence July 1, 2021. The tender included 225 properties for 24 months.

Three potential bidders picked up the tender documents; however, only one bid was received for \$179,400, including HST, which equates to an annual unit price of \$398.67 including HST. The current contract was for a period of 24 months with an annual unit price of \$221.99 including HST. This is an increase of 79.5% per household annually.

recovery facility. The Town's main reason for the meeting was to once again request that ATVs be given access the Board's waste recovery facility on Bell Island. They also stated they have an issue with illegal dumping on the island. The rationale for not allowing ATVs on any of the Board's sites was outlined along with suggestions as to whom to contact to properly address illegal dumping.

Due to the significant increase in price, there is no recommendation from Committee to award this tender.

The lowest bid of \$172,500.00 including HST for 23 months equates to an annual household cost of \$103.33 including HST. The previous contracted annual household cost for this area was \$98.14 including HST.

### **BACKGROUND/DISCUSSION:**

- Salaries and Benefits are on budget to March 31st at 25% and 27% respectively.
- Purchased Services as a whole is well under budget, but the invoices related to the audit and legal fees were received in early April.
- Almost all budget categories are below budget for Q1. This could be an issue with the timing of invoices.
- Capital Expenditures are over budget as they include the progress payments for the two
  new trailers that were purchased in 2020. The budget allocation was transferred to the
  current year. Also included were the new SUV and Heavy-Duty Pickup to replace
  current fleet vehicles.
- The Bell Island WRF project was completed and paid for in Q1. The project was completed underbudget.
- Overall Operating expenditures at March 31st is at 20.3% of budget.
- Overall revenue invoiced as at March 31st was at 63.2% of budget.

### **MOTION:**

BE IT RESOLVED that the Finance & Audit Committee recommend that the Board award the Request for Proposals: Human Resources Policy and Procedure Manual and Salary Scales Review Service Agreement to Knightsbridge Robertson Surrette (KBRS) in the amount of \$16,000.00 plus HST.

- No collective agreement has been reached and there has been no contact with the union since early 2020.

- Four potential consulting firms picked up the RFP package and proposals were received from three firms:
  - o KBRS (Knightsbridge Robertson Surrette)
  - o HR Project Partners
  - Higher Talent
- The Board's Chairperson, Vice Chairperson, Chief Administrative Officer and Manager Corporate Services met on May 6<sup>th</sup> to evaluate the proposals.
- The evaluation was based on the scoring criteria outlined in the RFP Technical Approach (40 points); Experience/Expertise of Key Personnel and/or Consultant (25 points); Management Approach including budget and schedule adherence (20 points); and Dedication of Resources (15 points).
- Evaluation Part #1 (based on all items except budget and pricing): KBRS proposal scoring was highest on each of the four scoring criteria for all four evaluators.
- Evaluation Part #2 (budget and pricing): KBRS proposal was the lowest price bid of the three received.
- Recommendation is to award the service agreement for the HR review to KBRS.

HR Review - Scope of Work.pdf

### Good Afternoon,

Attached is a brief note that was tabled at this week's Finance & Audit Committee meeting that provides information on the recent Request for Proposals: Human Resources Policy and Salary Scales Review issued by the Board. As members may recall, this item was discussed at the Finance & Audit Committee and the regular monthly Board meeting of September 2020 where a motion was adopted (Motion #2020-062) to proceed with the review.

The Board adopted its current human resources policy document in 2012 and adopted amendments in 2016 and 2017. The Board's HR policy, Section 4.8, states that a review will be completed every three years. The HR policy and salary scales were scheduled for a review in 2019. However, due to the Ministerial Directives, Provincial Waste Management Strategy Review, union certification, etc., the review did not take place. In 2020 we had to deal with the global pandemic and this item once again was postponed. However, in September 2020 the Board did adopt a motion to proceed with the review for non-bargaining staff only.

I have attached the scope of work that was included in the RFP for members' information. As you can see, it includes a review, update and development of position descriptions, salary scales, and the organizational chart. As a part of the RFP, it is expected that existing Human Resources Policy and Procedure Manual will be updated to become consistent with industry best practices as well as compliant with all required legislation.

The RFP was completed and issued in April 2021. Four potential consulting firms picked up the RFP package and proposals was received from three (3) firms: KBRS (Knightsbridge); HR Project Partners; and, Higher Talent.

The Board's Chair, Vice Chair, CAO and Manager Corporate Services met on May 6<sup>th</sup> to open and evaluate the proposals. The evaluation was based on the scoring criteria outlined in the RFP – Technical Approach; Experience/Expertise of Key Personnel and/or Consultant; Management Approach including schedule and budget adherence; and, Dedication of Resources. The results of the evaluation are:

Part #1 (based on all criteria except budget and pricing): KBRS proposal scoring was highest on each of the four scoring criteria or all four evaluators.

Part #2 (budget and pricing): KBRS proposal was the lowest price of the three received.

The Finance & Audit Committee adopted a motion at its meeting of May 13, 2021 to recommend that the Board award the contract for the RFP to KBRS. Normally, this motion would have been brought to the Board by the Finance & Audit Committee Chairperson at the regular meeting

scheduled for May 26, 2021; however, if we wait until then, the consultant cannot begin their work until June and the work would not be completed until late July or some time in August. To ensure a more timely completion of this work, the Chair has approved this motion by email. In the proposal received from KBRS, the consultant indicated that this work could be completed by around June 30<sup>th</sup> with timely contract award. This motion will be ratified at the public Board meeting scheduled for May 26, 2021.

Would you please review the attached briefing note and information, then send along your response to the motion below at your earliest convenience to Holly at <a href="https://hocso.ncbi.ca">hccoles@ersbnl.ca</a>.

MOTION: BE IT RESOLVED that the Eastern Regional Service Board award the Request for Proposals: Human Resources Policy and Procedure Manual and Salary Scales Review Service Agreement to Knightsbridge, Robertson and Surrette (KBRS) in the amount of \$16,000 plus HST.

  - o Recyclables 101,950 kg.

#### In summary:

- No metals were collected in Q1.
- Staff have continued to track efforts to deal with illegal dumping at facilities.
- Points of interest:
  - Of note is that the Harbour Grace facility which had approximately double the client visits than the Whitbourne facility, received approximately three times the removals.
     This is directly related to the amount of material that is delivered to the site after hours due to illegal access.
  - o The Renews-Cappahayden facility no longer has a back load of material. The extra effort noted above has resulted in these materials being removed.

- Questions have been raised by the Board's staff regarding what level of accommodation must be made for anyone who refuses to wear a mask or to travel together in one vehicle, etc.
- It is difficult to find good information regarding whether an employer can ask an employee:
  - To become vaccinated for COVID;
  - o If they intend to be vaccinated; or,
  - If they have been vaccinated;
  - o To provide proof of vaccination.
  - If an employer has to accommodate an employee who refuses to wear a mask;
  - If an employer can ask two employees to travel together in a vehicle if one refuses on the basis of not knowing if the other employee has been vaccinated and/or will not wear a mask;
  - o Etc
- As we move forward in this COVID environment while maintaining operations, a
  policy document providing guidance for staff is necessary.

- The policy statement must be developed in line with all OH&S requirements; public health requirements; and legislation.

Hon. Bernard Davis, MHA
Minister of Environment and Climate Change
Government of Newfoundland and Labrador
PO Box 8700
St. John's, NL A1B 4J6

Dear Minister Davis,

At recent general meetings of the Eastern Regional Service Board, we discussed several issues that are impacting the provision of waste services on a regional level. As elected municipal representatives, each board member understands the challenges faced by communities across our province especially during the COVID-19 pandemic, but we also understand how beneficial it is to work together toward a common goal.

The Regional Service Board Act provides the ERSB with the legislative authority to deliver waste collection and other municipal services to communities in the Eastern Region. The Municipalities Act allows for the incorporated towns to withdraw or opt out from services provided by the Board. As a result, the ERSB does not collect from or provide services to all communities in the Eastern Region.

The Board has followed the directives of the *Provincial Solid Waste Management Strategy* and have required contractors to adhere to the directives during the provision of services. All our contracts include recyclables collection. The ERSB does not have the authority to impose the *Provincial Solid Waste Management Strategy* guidelines on incorporated towns that have not contracted with the Board. As such, the Board cannot determine if those towns provide services such as recycling to their residents.

The Board believes that every resident in the region should have access to a modern, fair, and equitable waste collection service. We believe that there should be a standard set for waste collection that each contractor must abide by and that there should be economic consequences for failing to provide a standard level of service that is in accordance with the directives of the *Provincial Waste Management Strategy*. While the Board appreciates the ability for a town to be able to opt in or opt out of a regional service, the town should be required to ensure that the same level of service provided for in the regional service is provided to their residents.

Hon. Bernard Davis, MHA Minister of Environment and Climate Change Page 2 May 14, 2021

As a former member of the Eastern Regional Service Board and now as the Minister of Environment and Climate Change with responsibility for the *Provincial Waste Management Strategy*, we would very much like to discuss with you the Board's opinions on regional cooperation. The Board and I are concerned that some communities are starting to lose sight of the benefits of cooperation. The Board would very much appreciate assistance and support from your department to determine a strategy to increase regional cooperation. We can certainly also provide our expertise in municipal governance and regional cooperation.

Further to the regional cooperation issues we are seeing, the Board has had communication issues with a limited number of town councils in the region. The Board has had numerous documented issues regarding the Waste Recovery Facility in Harbour Grace and has written the Mayor and Council several times asking for a meeting to address the issues. The Town has yet to respond to the letters and the vandalism and indiscriminate dumping at our site continues. The Board has also seen some issues at our new site on Bell Island. The Board asks that we have a discussion with your department to determine the options available for our sites and the best course of action to ensure the safety of our sites and our employees.

The Board would like to request a meeting with you and your staff to discuss regional cooperation, the *Provincial Waste Management Strategy*, and the vandalism at several of our waste recovery facility sites.

Thank you in advance for taking the time to review our letter and we look forward to working with you and your staff.

Sincerely yours,

EASTERN REGIONAL SERVICE BOARD

Harold Mullowney, B.Sc., B.Ed., M.P.H.
